What Is Vidarr Labs?

Who Is Vidarr?

Norse Mythology says Vidarr is described as the son of the god Oden, and is foretold to avenge his father's death by killing the wolf Fenrir at Ragnarök, a conflict which he is described as surviving. He will press one foot on Fenrir's bottom jaw, and will take hold of his other jaw and tear the wolf apart. He is one of the gods that will rule the new world when it is created.

Why Choose Vidarr?

The dedicated team of Vidarr Labs chose the name for many reasons. First we were attracted to the name Vidarr due to the fact that in the DeFi space it can be very deceitful, many have lost to rug pulls, scams and fraud. Having Vidarr be the god of vengeance is the perfect hidden message to return the space back to its former glory by showing everyone can still have a legitimate and safe token to invest in.

The Logo

Our logo is so much more than just an image, It is a representation of Strength, Unity, Protection and Respect.

Strength in the fact that our team and family (community) all have been through rough times in the space and understand that for success you first have to struggle.

Unity is our favourite word and shown in our logo. A united community and development team is unstoppable, Every successful token relies on the unity of its holders and development team, Without this nothing survives.

Protection in the fact that the development team must do everything in their power to protect the token and our community.

Respect is a huge part of a community, from fellow community members to the development team. We must be open, honest and truthful even when times are hard in respect to our community. Transparency comes from respect, and without respect you have no community. This is what we stand for... **We are Vidarr.**

RoadMap

Our Three Month Road Map

Launch

Launch

- Push Heavy Marketing
- Build Community
- Launch Staking
- 1st Giveaway
- Launch Dapp's 1&2 (Goal)
- Reach 350 Holders
- Launch Partnership Program

July

- Heavy Marketing Continued
- CoinMarketCap
- End Stake Vidarr/Vidarr
- Open Stake Vidarr/WETH
- Giveaway 3
- Launch Dapp 4 (Goal)
- Begin Dapp 4 Launch
- Reach 1250 Holders

June

June

Canada

"We Have Been Working Hard To Bring You Guys The Best We Can Bring! Just Wait To You See The NFT's....Wink...Wink Hit That Marketcap Lets Goooo!"

Dapps

We Have Developed 7 Dapps For Our Holders That Will Be Released At Certain Marketcap Goals. Each Dapp Has A Unified Purpose, Either For Fun, Bettering The DeFi Space Or Needed For Our End Dapp!

Launch (Staking)

At Launch, We Will Be Launching Our Staking Platform. Stake Vidarr, Earn Vidarr @ 26%APY.

\$5,000,000 Marketcap

This Dapp will bring forth a different side of the crypto space, bringing more attention to the project, holders will be able to collect 3D dragons. Only Purchasable Through us.

\$500,000 Marketcap

This Dapp will work hand in hand with our staking platform, bringing wealth from the gods to those who journey with us.

\$25,000,000 Marketcap

This Dapp will be amazing it is ready to go, a little hint you can use a Dapp browser.

\$2,000,000 Marketcap

This Dapp is luck based, will Hamingja bring you the riches of luck or will she send you to Valhalla.

\$50,000,000 Marketcap

This Dapp will change the way the crypto space trades, that's it, that's all.

Advantages Of Vidarr Labs

Investing In A Dedicated Team.

The team of Vidarr Labs is a proven and dedicated team, Where the safety of the token and community comes first. We will do what it takes to protect our community, even if the decisions that need to be made are hard. We have created a following, a family that at all costs must be protected.

The Dapp's.

No other token has done what we have done and create seven, yes seven Dapp's that are ready for release, we still have one more up our sleeves. They say you keep your most prized possessions close to your heart, and that's what we plan to do! Our Dapp's cover many aspects and have many uses. No other token has had seven Dapp's ready at launch!

Vidarr Lab's Is Safe.

Vidarr Labs is a safe investment, along the lines of what we can do as developers. We have implemented a Max Wallet to make sure everyone has a chance at the supply.

Also, we have a Max Transaction amount to make sure that investors can only sell a set amount of tokens at a time.

Furthermore, we have a blacklist function to block bots from sniping at launch (If Your Wallet Gets Blacklisted, We Will Not Un-blacklist It.)

We will be locking all the Liquidity for one month at launch and at 3 weeks will lock again for six months. So locked Liquidity, Open, Honest Team and a fully built use case's! What else can you ask for in a DeFi Token!

Closing Statment

Vidarr Labs Closing Statement

The team of Vidarr Labs would like to thank you for taking the time to read our white paper. We hope to see you in our community and become a part of the Vidarr Labs Family!
